Title: Student Media Production Room

Organization: Eagle Media

Date Introduced: 10/3/17

Purpose:

Through year-long discussions with the Library Renovation Task Force, we have secured a space on the first floor of Library West - Rm 119 - to be repurposed into a media production space for all FGCU students to produce audio/visual work, including Eagle Radio programming and ENTV studio productions. The space is scheduled to begin operations this fall, but the long-term goal is to transform it into a state-of-the-art A/V laboratory for student-produced work. The purpose of this bill is to secure the necessary funds to properly equip the room with the supplies, features and treatment to serve as a fully-functioning multimedia production space. We have worked diligently with both the staff, WGCU engineers and other administrators and faculty on accurately determining the needs of the room. This is a large endeavor that takes a sizeable investment to be successful.
